Carl Libby spent a day or two at his father's farm here, the past week.

Mr. and Mrs. J. D. Dunn and son, Albert, and friend, Mr. Edgcomb, all of Auburn, spent Friday with Mrs. R. M. Hewitt.

Adams' Balm which wonderfully reliable cough medicine stopped this boy's coughing spells with two doses.

As quick as it touches the inflamed throat it relieves soreness. Quickly relieves throat muscles and easily expels phlegm. Relieves the most stubborn and sticky infected phlegm—coughing stops.

Other ingredients attack the germs at seat of trouble and in a day or two all danger is gone.

Because Adams' Balm works so quickly and surely—it's the favorite all over New England. Contains no dope, over-dose, or harmful drugs. Try it for colds, sore throat, bronchitis or plain cough. 35c and 75c. At all drug stores.

Oxford County United Parish

Embracing Albany, North Lovell, Stoneham and the Waterfalls. Pastoral Staff: Revs. W. I. Bull, B. F. Wentworth, A. C. Townsend

The Larger Parish Plan, which has been introduced into several regions in Maine, is attracting attention from outside the State. Last week the Oxford County United Parish visited the churches in the parish, one from Ohio and the other from New York State. Rev. Charles L. Zorbaugh, D. D. is the Executive Secretary of the Synod of Ohio, (Presbyterian) and Rev. U. L. Mackay has the same office in New York State. This office corresponds very nearly to that of a Congregational State Superintendent.

While the rural problem in Maine is largely that of the unchurched, the problem in the states represented by these men is more often that of the over-church. They are looking for some plan which will change denominational rivalry into denominational cooperation. Quite likely some modified form of the larger, or regional parish will be recommended by the men who are visiting the churches. They expect to visit several of the recently organized larger parishes of Maine, such as the newest one at Raymond-Windham-Gorham, and the Regional Parish at Stoneham-Schoeny, and the Mount Desert Larger Parish.

THE SAVINGS ACCOUNT AND THE BINOCULARS

Both help to bring to a nearer vision those things desired. It may be you cannot build a pair of binoculars, but almost everyone in these days can build a savings bank account, and keep it growing to a point where it will bring much nearer these things desired—a home, auto, radio, or many other good things. What are you doing about one?

What Makes an Ozarka Radio Different to all Other Radios?

IN the OZARKA "AC" electric radio, nine tubes are used, including the rectifier—1 No. 280; 1 No. 227; 2 No. 112 and 5 No. 226—it is built for power and distance.

The OZARKA is the first radio ever to give uniform volume and selectivity on all wire lengths. Only one tuning dial, no fine adjustment necessary.

Four stages of radio frequency, three tuned and one untuned. One stage of push pull amplification using two No. 112 tubes.

Jacks for phonograph attachment. Complete radio on one chassis. No extras except loud speaker. Operates either dynamic or magnetic speakers.

Central "AC" Radio

After all the only real way to test any radio is by comparison right in your home. Claims mean nothing unless you can satisfy yourself.

It is not what any radio salesman can do but what you can do that counts. Buy no radio until you can tune it yourself.

The "OZARKA" is at your disposal any time you say. You are to be the sole judge but know what OZARKA is before you settle on any radio. What day would you like a sample OZARKA for test?
